

Critical Materials Caucus Briefing

Scaling Critical Material Supply Chains: A Discussion with DOD, DOE, and the Domestic Industry

Wednesday, July 13, 2022
2:30 PM EST

Please join the Critical Materials Caucus and the Battery Materials & Technology Coalition (BMTc) for a discussion on scaling domestic rare earth element and battery material supply chains. This briefing will discuss the national security implications of securing these supply chains and how Congress, Federal agencies, and industry can help scale a robust critical materials sector in the United States.

The briefing will feature:

- Opening remarks from the Co-Chairs of the Critical Materials Caucus, Representatives Eric Swalwell (CA-15) and Guy Reschenthaler (PA-14).
- A keynote address by Matt Zolnowski, Portfolio Manager at the Defense Production Act Title III Office, Department of Defense.
- A panel discussion on securing domestic critical material supply chains, featuring:
 - Ames Lab, USA Rare Earth, MP Materials, Piedmont Lithium, Talon Metals, and Cirba Solutions.
